

# KINDNESS UNITES PAPERCHAIN

**You are invited to participate in creating 1 million links of love and hope to unite the world and set a Guinness World Record!**

1. Gather Recycled/Reused Paper – Be mindful of the environment. We hope to make the entire paper chain from recycled or reused paper. The weight of the paper should be thin enough to easily mail/bend and thick enough to create a sturdy link in the chain. Suggested materials include brown paper shopping bags, large mailing envelopes, cereal/food boxes, and craft paper scraps.

2. Measure & Cut Links – Each strip must be between 11 inches – 18 inches long and 1.5 inches wide.

3. Decorate Links with Love & Hope – You can get as creative as you'd like as you share messages of LOVE and HOPE for the world, however please avoid gluing 3-dimensional objects that may create waste/litter when assembled. Use markers, paint, crayons, sharpies, pencils or pens. We will feature many of the links on our website and on social media to inspire the world!

4. DO NOT turn your links into a chain – it will be assembled for you! Turn in your links to the Benninghoven office by February 19 OR mail to the address below by February 26:

Kids for Peace
